

Since 2000 FMO has been affiliated with Cross Country Motor Club (CCMC), the largest privately held motor club provider in the USA. Now, we're into our third year and growing stronger. Thousands of members have already signed up for the Elite Membership and have praised Cross Country for its efficient, fast service. For the small annual fee of \$30 added to your FMO membership dues you can upgrade to the Elite membership, a special feature that will provide you with some of the most comprehensive and dynamic benefits offered by any motor club. Here are just a few of the advantages:

24-Hour Emergency Road Service

Cross Country's National Dispatch Network of approximately 25,000 24-hour service facilities available throughout the United States and Canada stands ready to answer your calls for assistance any time of any day. Cross Country's efficient associates will help you by jump-starting your car, by changing a flat tire, by delivering gasoline if you accidentally run out of fuel, or, if need be, by towing your car to a service location. If you lock yourself out of your car, CCMC will provide a locksmith to gain entry to your vehicle and retrieve your keys.

Custom Computerized Trip Routing/Map Service

Using the latest computer technology, CCMC will provide detailed, easy to read, computerized itineraries tailored to fit your needs. Your destination stops will be customized for you in the order you prefer. You'll receive all the information you need to make your trip safe and enjoyable: route numbers, directions, and important reports about the types of roads on which you'll be traveling (interstates, toll roads, state highways, etc.) CCMC will even provide a companion map for any back-seat drivers you might have with you.

Reimbursement for Emergency Travel Expense

If you're ever driving your vehicle at least 100 miles from your residence and your vehicle is disabled because of a collision with another vehicle or object and cannot be driven safely under its own power, CCMC will reimburse the actual reasonable expenses of up to \$500 per disablement to return you to your home by plane, train, or bus, or to provide you with food, lodging, and car rental while your car is being repaired.

Emergency Message Service

If you find yourself in an emergency situation and you cannot contact a family member, you can contact a CCMC representative and that representative will contact up to three family members for you, advising them of all the particulars relating to your emergency and providing them with information on how to contact you.

Auto/Truck/RV Rental Discounts

Save up to 40% from Alamo, Avis, Budget, Hertz and National Rental Systems.

Hotel/Motel Discounts

CCMC has made arrangements with a number of national chains, including Days Inn, Howard Johnson, Super 8 Motel, Ramada Plaza Resort, and many more for discounts and special considerations. Choose from over 5,000 hotels/motels all across the country at participating locations.

Movie Theatre Discounts

Take a nice, cool break at one of the more than 700 movie theatres all across the United States.

How do I join?

To take advantage of this wonderful opportunity available only to FMO members, just check the appropriate box on your membership renewal form. These incredible benefits will cost you just \$30 each year, far less than other motor club plans. And unlike other plans that charge extra to provide coverage to your spouse, the Elite membership provides protection for both you and your spouse for the one low rate of \$30 annually. So simply add the \$30 annual fee to your membership dues, and then send the payment to FMO. It's that easy. There are no long, tedious forms to fill out. No membership packages to pour through, assemble and return. FMO takes care of everything for you, electronically transmitting the required information to Cross Country Motor Club. Then you can begin to enjoy the security and peace of mind that FMO's Elite membership will bring because you'll know that FMO looks out for you while you're at your Florida home and CCMC looks out for you when you're on the road in the U.S. or in Canada.
